

# Behaviour on the Parent Portal

The **Behaviour** Section on the parent portal will load all points the student has linked to their profile for the current academic year.

You can access the Behaviour Section from the **Quick Actions** menu on your Dashboard.

The student's behaviour scores from the current academic year are shown automatically. To change the academic year, click on the drop-down menu next to "Behaviour For".

It will also display the student's points total, a breakdown of the points awarded. Each report will list when the number of points recorded on Arbor, the date they were awarded, including the date the number of points, the category and the staff member that added the point, any comments.

## Behaviour Comments

20 Dec 2018	<b>Blossoming kindness</b> Chloe has been working on her kindness and demonstrably improved this in recent weeks. Perhaps she is thinking about Santa?
13 Dec 2018	<b>Kindness Goals</b> Chloe has been told that she needs to work on her kindness and was very open to this in class.
